FISCHER RACE CODE IS THE SEAL OF QUALITY FROM HIGH LEVEL RACING

Feedback from every athlete in the Fischer racing team always takes the highest priority when we develop a new racing collection. Our product development team is in a constant feedback loop with our athletes, so we can apply their insights from the slopes directly into technological innovations. Giving even the smallest details great weight is the only way to guarantee true advancements in technology.

This know-how isn't found only in Fischer skis. Combine RC4 skis with the RC4 Podium boot for the ideal set-up, exactly as you see in Fischer racing team World Cup victories. The ski boot is the critical link between skier and ski. It is the direct connection to the course and determines the amount of control and power transfer the skier puts down onto the course.

Innovation and performance technology have been part of Fischer since its founding and are as important as ever. You'll find all the information about the 23124 collection and beyond, along with all our latest innovations, in this folder at www.fischersports.com. Much success and enjoyment with the Fischer Race Collection 23124!

23|24 RC4 PODIUM RACE BOOTS

NEW RC4 PODIUM RD WORLDCUP STD

The RC4 Podium RD is the boot of choice for Fischer's skiers on the World Cup Circuit, featuring a slim 92mm last, it delivering the reliable precision needed to reach the top step of the podium. For season 23|24 Fischer is for the first time offering the identical boots being skied by the top athletes on the World Cup to Fischer Alpine Racing Centers.

Boots are available in 4 flexes, having adopted the naming from the World Cup, where for example 4:1 signifies a flex of 150. Following this logic 3:1 and 6:1 flexes are on the menu for the very first time.

UPGRADE CUFFS

In addition to the complete boots, Fischer is offering 4 flexes of upgrade cuffs. Certain World Cup athletes have been able to find more speed and performance by installing a cuff one grade stiffer than the shell.
