HERO LIMITED EDITION

The Hero LTD ski is the perfect summary of racing intensity and the complex emotions that compose it. Each color represents a reflection to an emotion experienced during the race.

RED PASSION

Race passion. A deep driving passion that fully bursts in the thrill of the race, putting it all on the line, pushing everything for the win.

BLUE SERENITY

Finding the groove but being on the limit at the same time, but somehow everything seems to be in flow. There is a certain race serenity of winning runs, perfect control within the races' chaos.

YELLOW HAPPINESS

Happiness is initiated at the moment of reaching across the finish line. A sudden burst of ultimate happiness when the timing board reveals a podium, lifting of the Cup or Medal to come.

GREEN LUCK

As in all great things, and especially in sports, you need a little bit of luck.

Between the next Olympics in Beijing 2022 and the World Ski Championships in Courchevel/ Méribel 2023, every podium achieved by one of our HERO's on the World Cup, a lottery for "Giveaway products", will be held for all registered participants and owners of the HERO Limited Edition's skis... Simply, buy your Limited skis in one of our partner's skis shop and scan the QR code, registered and enter the special Rossignol HERO Limited Edition platform on our website.

1 LINE CONTROL TECHNOLOGY ENERGY ACTIVATOR

The LCT technology was developed for Racing. The central rail integrated over the entire length of the ski eliminates some of the ski's counter-flexion to ensure stability and dynamic control.

2 RADIUS MASTER

Designed and created as World Cup skis but tailored to the needs of piste skiers, the Hero Master skis are the industry benchmark for performance and control.

They accelerate like the skis worn by the champions, but allow far easier carving thanks to much more clearly defined sidecuts. All the power and performance of race skis without the constraints. THE ski for expert thrill-seeking skiers and for passionate racers outside the FIS circuit (Course Master, Eurotest events, etc.).

MASTER LT (LONG TURN) for all the sensations of long GS-type turns (acceleration, trajectory control, power, stability) and for high-speed morning outings on smooth, pristine pistes.

MASTER ST (SHORT TURN): Short radius of 11, 12 or 13 m for even greater carving thrills and unimaginable angles with maximum tip control and precision steering.

RACING PLATES ENERGY TRANSMISSION

1 R22 WC

The R22 plate has been developed with our World cup athletes.

- Boot soles : 264-352 mm
- Compatible bindings :
PX18, SPX 15, SPX 14, SPX 12 ROCKERACE
- One Piece
- Metal Inserts
- Metal Side wall for a better grip
- Weight : 395gr (half pair)

BENEFITS

- Regular flexibility
- Lightweight
- Lifter for better angle
- Better grip

2 R21 PRO

The R21 Pro is the junior version of the R22, developed for young Champions.

- Boot soles : 241-317 mm
- Compatible bindings :
SPX 10 GW, NX 10 GW, NX 7 GW
- Two Pieces
- Composite inserts
- Weight : 190gr (half pair)

BENEFITS

- Regular flexibility
- Lightweight
- Lifter for better angle

1 DUAL CORE TECHNOLOGY

DUAL CORE involves injecting materials with different hardness levels or of different types into the same mould. The result is a sandwich construction with an ultra-thin layer of hard materials on the outside encapsulating the softer materials inside. This makes it possible to create zones of different hardness on the boot, without adding layers of plastic.

This technology can be used to accurately fine-tune the progressive flex, rear support and rebound.

DUAL CORE RACE

The entire HERO WORLD CUP and HERO range features the DUAL CORE technology. The process involves three injection points on the shell and two on the cuff. This technology can be used to accurately fine-tune the progressive flex, rear support and rebound. It also allows for highly effective lateral power transfer.

2 RACE PRE-SHAPED LINER

The lower part of these liners is pre-shaped around the ankle bone to ensure a snug fit with the shell's internal last. The shape can be seen on the outside of the liner.

ROSSIGNOL RACE DEPARTMENT RECOMMENDATIONS (Skis, Bindings, Skiboosts)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

ADDITIONAL NOTES / REMARQUES SUPPLEMENTAIRES

U10 2 OPTIONS FOR ATHLETES LOOKING FOR 1 SKI or 2 SKIS (GS & SL)

* Size 185cm could be use for Adult race, non FIS ! But also for U16 FIS Race

* La taille 185cm peut être utilisé pour des courses Adultes non FIS mais aussi par des U16 en FIS.

**Second Year U16 Boys should consider use of 188 or 193, 30m GS skis based on coaches discretion

**Les coureurs en deuxième année U16 devraient considérer les tailles 188 ou 193 (ski de GS avec rayon de 30m) à la discrétion de leur entraîneur
